

Dear Sirs,

PMG is already for **6 years** :

The **most advance and efficient system** to grind and pre-polish silver and brass quality jewellery

It has big advantage compared with existing mechanical and/or galvanic systems.

If you do not know PMG, please let us know, and we would send information to you.

2nd STEP NOW

New machine and system,
special for insides, intricate or “stones cast in place” jewellery
Now available for silver and brass

Coming soon the **system for GOLD**

In our lab we **can process your samples**, and sending back to you, with the corresponding report. **ALSO IN GOLD**

Casting stones in place

If you are interested in **IMPROVING QUALITY OF YOUR PRODUCTION, REDUCE THE COST, AND MINIMIZE THE LOSS**, this is the right equipment.

Thanks for your time. Please:

Ask fur further information and/or place your questions

Best regards

HISPANA
